Jorgensen: First Session Day a Missed Opportunity to Help Middle Class Wisconsin Families

MADISON – State Representative Andy Jorgensen (D-Milton) released this statement following passage of Senate Joint Resolution 2:

"Assembly Democrats are focused on restoring economic opportunity, so it was disappointing to spend our first serious session day debating a Republican plan to grab more power in our state's highest court.

"Let's use each and every day we meet to do something good for the people we serve. Moving forward, it's my hope we'll work together to build a stronger middle class, provide job training and health care options, and support our public schools."
